```javascript
function checkArrayForSum(arr) {
    for (var i = 0; i < arr.length; i++) {
        for (var j = i + 1; j < arr.length; j++)
{
            if (arr[i] + arr[j] === 10) {
                return true;
            }
        }
    }
    return false;
}

// Example usage:
var numbers = [2, 3, 4, 5];
console.log(checkArrayForSum(numbers)); //
Should return true
```
